

Adding Widgets to myUEN

1. Find the widget that you would like to add to your website. There are some resources below.
2. You will need to find the source code for the widget and copy it. See below.
3. Make a new message box or click on Edit on an existing message box.

4. Click on HTML.

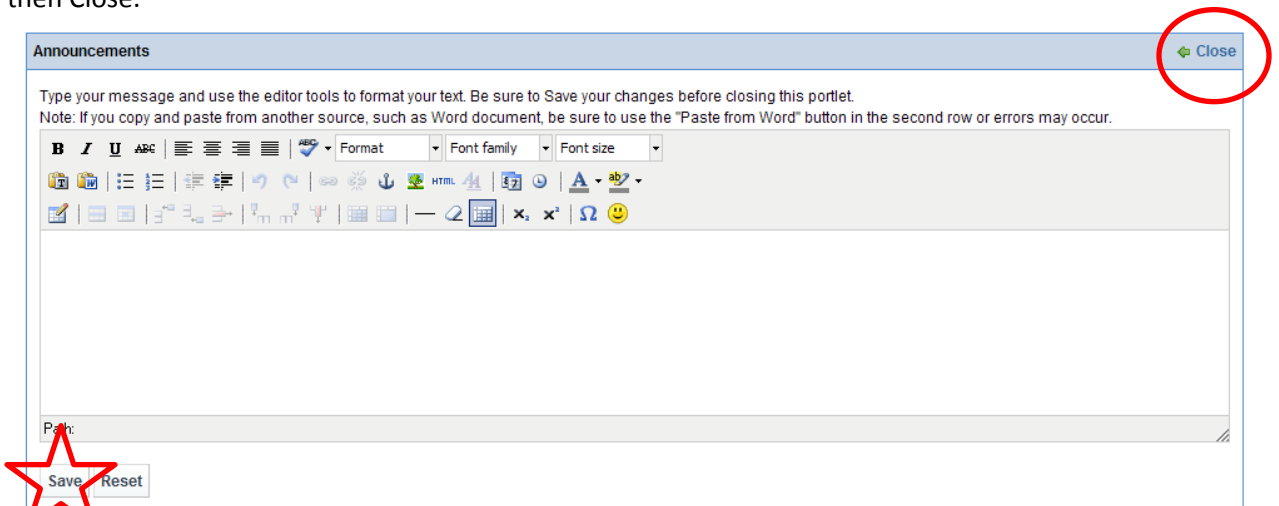

5. Paste the source code into the box.

6. Click Update.

7. Nothing will appear in the message box. To see if you have done it correctly, click on Save and then Close.

8. Your widget should now appear on your website.

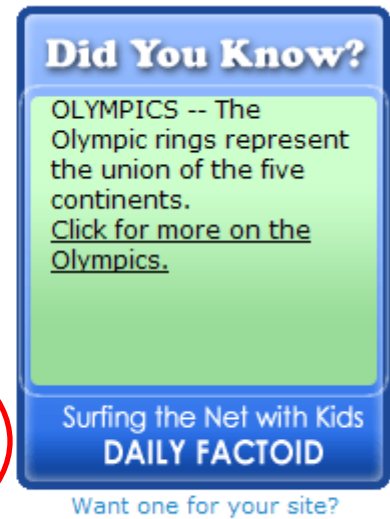

Resources for Widgets

SurfNet Kids (<http://www.surfnetkids.com/widget-code.htm>)

This page has widgets for a daily factoid, daily chuckle, game of the day, and more. The source code you will need to copy is circled.

DAILY FACTOID: Imagine a week of Christopher Columbus facts to celebrate Columbus Day, or a week of Declaration of Independence tidbits for the 4th of July! To place the "Did you Know?" Daily Factoid on your Web page, copy-and-paste the following code onto your page

```
<script language="JavaScript"
src="http://www.surfnetkids.com/applets/factoid.js">
</script>
```

National Geographic Widget (<http://widgets.nationalgeographic.com/widgets/>)

On this widget you will first need to press "Get This Widget" and then copy the code.

National Geographic KIDS Widget
Watch hundreds of fun and educational videos, read News Bites just for kids, play games, and learn a random fact!

Subscribe today for only \$15.00 a year!

Embed the Widget:

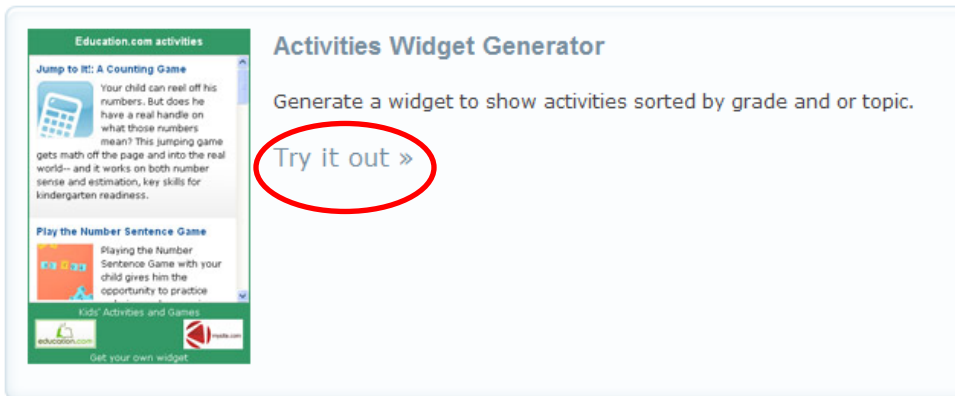

```
<script type="text/javascript"
src="http://kidsblogs.nationalgeographic.com/blog"
```

COPY TO CLIPBOARD

Did You Know? GET THIS WIDGET

Education.com (<http://www.education.com/tools/>)

These are some fun widgets. To get the code, first click on "Try It Out." This takes you to a page where you can change things on the widget. The code will pop up in its own box. That is what you need to copy.

Customize your widget

1. Title of your widget:

Education.com Activities

2. Choose the Topic and Grade level

Currently this widget will show activities from:

Grade: All Grades
Topic: All Topics

3. Change the colors

Background: #339966
Title text: #ffffff
 Add an outer border to the widget

4. Choose the size of the widget:

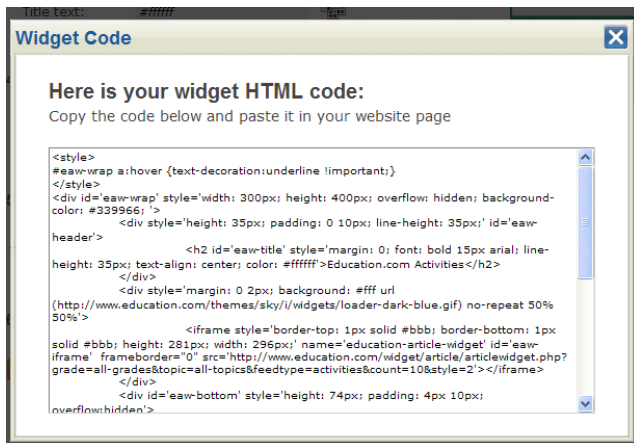

- Small (250 x 300)
- Normal (300 x 400)
- Use a custom size...

5. About you

Email: *
Website:

6. Extra options (optional)

Generate Widget HTML or Create plugin for WordPress

Reading Widgets (<http://www.readingrockets.org/sharing/widgets/>)

This website has several reading widgets for students and teachers. First, click on get this widget. Then copy the embed code.

Reading Tip of the Day

Reading, and a love for reading, begins at home. These daily reading tips offer easy ways for parents to help kids become successful readers.

Widget embed code

Copy the embed code below and place it in the HTML code in your web page.

```
<script type="text/javascript"
src="http://cdn.widgetserver.com/syndication/subscriber/InsertWidget.js"><
type="text/javascript">if (WIDGETBOX) WIDGETBOX.renderWidget
('457b24e9-d778-4181-99f1-915407b4283a');</script><noscript>Not
seeing a widget? (<a href="http://docs.widgetbox.com/using-
widgets/installing-widgets/why-cant-i-see-my-widget/">More info</a>>
</noscript>
```

Health Widgets (<http://www.nourishinteractive.com/nutrition-tools-healthy-family/healthy-living-widgets-fun-kids-games-nutrition-widgets-family-friendly-widgets-healthy-fun-for-children-parents-schools>)

These widgets have daily nutrition tips, health games, and more. Click on Get Widget first, then click on Copy.

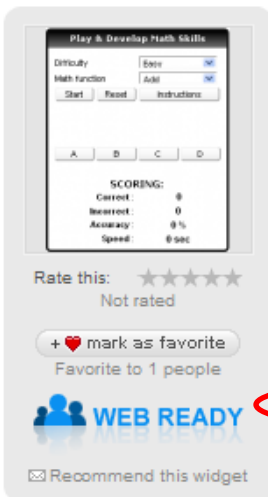

Online Web Gadgets (http://onlinewebgadgets.com/gadget_education.html)

Some of these are too hard for elementary or don't apply to elementary but I like Grammar Quiz and USA Smarts. Click on Get Widget, then click on Copy.

Widgipedia (http://www.widgipedia.com/widgets/customize/Finotax/Math-Game_5441.html)

This website has some good widgets and some are just for play. When you copy the code make sure you copy the *Widget Embedded Code*.

Math Game

Version 1.1 - Update January 30, 2012

Publisher: [Finotax](#) [RSS](#)

Platform: [DHTML \(Windows, Mac, Linux\)](#) [RSS](#)

Tags: [Test](#), [Skills](#), [Maths](#), [Game](#)

A cool, interesting and absorbing game to test speed and accuracy of math skills. Kids and others may play the game to sharpen their mathematical abilities.
