Embedding Video to myUEN

Things to Remember

- You can NOT embed video for eMedia. The videos in eMedia are copyrighted and will not give you an embed code.
- You can use videos from any source as long as you can find the embed code. YouTube,
 TeacherTube, and SchoolTube are great places to get videos from. See below for the location of their embed codes.
- 1. Find the video on the Internet that you would like to embed. You will need to find the embed code. See below for different websites.
- 2. Open a new message box, or click on edit in the message box where you would like the video to be.

America	2	

3. Click on the HTML icon.

Type your message and use the editor tools to format your text. Be sure to Save your change Note: If you copy and paste from another source, such as Word document, be sure to use f	e: ne

7. You should now be able to see your video on your webpage.

YouTube Embed Code

1. Under the video there is a Share button. Click on it.

2. Next, click on the Embed button.

3. Finally, copy the highlighted Embed Code.

TeacherTube Embed Code

1. The embed code is located off to the right side under "Embeddable Player."

School Tube Embed Code

1. The embed code is located under the video.
